FAKE TEST014 SUPPLEMENTAL INVOICE PAGE

Purpose: synthetic multi-upgrade test data for Claims AI pipeline only.
This page was appended to the Heat Pump test invoice to make the package intentionally messy but valid.

Contractor: Island EcoEnergy Ltd.
Invoice: HP-TEST014-MULTI
Invoice date: 2026-05-15
Customer / site: Test Homeowner, 1234 Test Attic Road, Victoria BC

Additional ESP rebate-claimed upgrade lines

Line	Description	Evidence / product detail	Amount
1	Air source heat pump installation	Mitsubishi Zuba Central PVA-A36AA7 + PUZ-HA36NKA	\$18,950.00
2	Wood / solid-fuel context documentation	WETT report attached for removed/decommissioned wood appliance	\$0.00
3	Attic insulation upgrade	Blown-in loose fill insulation added to attic to target R-80	\$4,850.00
4	Insulation before/after evidence	Before and after attic photos attached; same attic area and depth marker	\$0.00
5	Windows and doors upgrade	Two ENERGY STAR certified Super Windows/Silverline units installed	\$3,400.00
6	Window energy label evidence	Fenestration energy tags attached; U-factor 1.21, ER 33/26, CSA A440.2	\$0.00
			Synthetic additional subtotal\$27,200.00
			GST/HST/PST placeholder\$0.00
			Synthetic test total \$27,200.00

Expected AI behavior

- Detect air_source_heat_pump_wood from the heat-pump invoice context plus WETT support.
- Also detect insulation because this appended page explicitly claims attic insulation work.
- Also detect windows_doors because this appended page explicitly claims installed ENERGY STAR window units.
- Treat the attic before/after photos as a before_after_photo_set for insulation evidence.
- Treat fenestration energy tags as manufacturer/energy-label photo evidence for windows_doors.
- Do not classify unrelated upgrades beyond the evidence above.
