INVOICE

FreshAir HVAC Ltd.
BC Contractor Registration: HP-VENT-2048
Invoice No: VENT-2026-001
Invoice Date: 2026-06-12
Customer: Test Customer
Installation Address: 123 Example Street, Victoria, BC

Scope of Work

Installed one Airflow AIR205-R heat recovery ventilator (HRV) as part of the same CleanBC Energy Savings Program project as the air-source heat pump installation listed below.

The ventilation upgrade improves air circulation in the home by providing balanced fresh-air supply and stale-air exhaust through a heat recovery ventilator.

Line Items

- 1. Air-source heat pump installation - outdoor unit, indoor head, refrigerant lines, commissioning
Amount: \$8,750.00
- 2. Ventilation upgrade - Airflow AIR205-R heat recovery ventilator (HRV), duct connection, balancing, commissioning
Amount: \$2,000.00
- 3. Labour included for HRV installation by licensed HVAC contractor
Amount: Included

CleanBC / Better Homes / ESP Rebates

Air-source heat pump rebate: -\$5,000.00
Ventilation rebate: -\$1,600.00

Subtotal before rebates: \$10,750.00
Total CleanBC / Better Homes / ESP rebate: -\$6,600.00
Customer amount owing after rebate: \$4,150.00

Notes

The Airflow AIR205-R HRV is ENERGY STAR certified and listed on the Natural Resources Canada searchable product list for heat/energy recovery ventilators.
The HRV was installed in accordance with the BC Housing Heat Recovery Ventilation Guide for Houses.
