

# Home Comfort System Handover Record

Operational handover and homeowner orientation record — not an invoice

## Installation complete and operating

The heat-pump system was commissioned, demonstrated to the homeowner, and handed over for normal use.

### HOME AND CUSTOMER

|                         |                                                     |
|-------------------------|-----------------------------------------------------|
| Customer                | XIE YONG YI                                         |
| Installation address    | 6439 Azure Road, Richmond BC V7C 2R8, Canada        |
| Related electrical work | Electrical service upgrade — Invoice INV/2025/00040 |

### INSTALLED SYSTEM

|                            |                                                                |
|----------------------------|----------------------------------------------------------------|
| System                     | Cold-climate air-source heat pump                              |
| Outdoor equipment          | Variable-capacity heat-pump outdoor unit                       |
| Installer job reference    | MHES-6439-AZURE-HP                                             |
| Operating mode at handover | Heating and cooling enabled; thermostat left in automatic mode |

### HANDOVER CHECKS

|   |                                                                       |
|---|-----------------------------------------------------------------------|
| ✓ | System start-up and normal operation confirmed.                       |
| ✓ | Thermostat controls and filter maintenance demonstrated to homeowner. |
| ✓ | Outdoor and indoor equipment visually reviewed after installation.    |
