Fossil-Fuel Heating System Removal Confirmation

Completion record associated with heat-pump installation invoice 202861836

CUSTOMER Kelsey Snelgrove REMOVAL / JOB ADDRESS 838 Shuswap Avenue Chase, BC V0E 1M0	RELATED INVOICE 202861836 DATE REMOVAL COMPLETED May 7, 2025 COMPLETION STATUS REMOVAL COMPLETED
---	---

Description of completed removal work

Fox Plumbing Heating Cooling Electrical disconnected, completely removed, and prepared for recycling the existing **natural-gas forced-air furnace and associated gas-fired heating equipment** at the job address. Associated accessible gas heating piping was removed or decommissioned, and the remaining gas supply line serving the removed furnace was permanently capped and checked at completion. The old furnace was removed from the premises for recycling and disposal.

Removal scope

ITEM	COMPLETED WORK
Existing system	Natural-gas forced-air furnace used as the home's existing primary space-heating system.
Disconnection	Gas-fired furnace isolated and disconnected from the fuel supply and electrical/mechanical connections required for removal.
Removal	Furnace and associated removable gas-heating components and piping removed from the job site for recycling and lawful disposal.
Gas line	Remaining furnace gas supply line capped following removal; removal area left ready for the replacement air-source heat-pump air handler.
Replacement	TOSOT air-source heat pump outdoor model TU36-24WADU and indoor air-handler model TUD36-24AH2ADU installed under invoice 202861836.

Completion confirmation: The natural-gas furnace removal described above was completed on **May 7, 2025** at **838 Shuswap Avenue, Chase, BC V0E 1M0**. This record documents the removal-company / heat-pump-installation-company work scope associated with invoice 202861836. It is not a local-government permit or inspection report.
