Notes:

Hi Emily and Kari,

We appreciate your business!

As discussed, the load calculation indicated that your original service was at capacity, and we were unable to add the load of the heat pump

We have completed all the work on your service upgrade and panel/ circuit change overs.

I hope you are happy with our work and how things turned out. You will enjoy lower heating bills and now have extra capacity in the home.

You now have a modern expanded service to the house. Big improvements!

Happy to help with any future electrical needs you may have.

Please pay this invoice as soon as possible so we can include the paid invoice when we bill the CleanBC program the remaining balance before the deadline.

ANY REMAINING BALANCE NOT COVERED BY THE PROGRAM IS TO BE PAID BY YOU. We do not determine your eligibility level.

Thanks,

Full Spectrum Electric
